

Cloud Enablement Services for Healthcare

Transforming Our Cloud Expertise into
Your Success

Introduction

Cloud first is the new normal for healthcare organizations moving ahead. However, embracing cloud can be a tedious task - a journey that is not the same for everyone. It requires active commitment and careful considerations to derive all the cloud benefits such as scalability, cost savings, flexibility, and efficiency.

At GS Lab | GAVS, we help healthcare organizations embrace cloud technologies to meet their business objectives and drive growth. Our expertise across healthcare processes and systems, infrastructure management and cloud native engineering makes us an ideal cloud transformation, development, and operations partner. Enabled by a strong partner ecosystem, open-source contributions and IP innovations we help accelerate the cloud journey for our customers.

We help businesses

Migrate and Manage

- Cloud Data Centers/Private Clouds
- Public Clouds
- Hybrid Clouds

Build and Modernize

- Applications
- Platforms
- HiTech Products

Our Cloud Enablement Services

Cloud Migration Bundle

- Suitability Assessment
- Migration plan

- Optimization

Cloud Essentials

- Hybrid/multicloud foundation
- Cloud resource and cost governance
- Cloud IAM, Privacy and Security
- Cloud operations and monitoring

Cloud Engineering

- Cloud native application architecture
- DevOps maturity assessment & provisioning automation
- End user computing
- Edge computing/IoT solutions
- Data on cloud
- Analytics on cloud

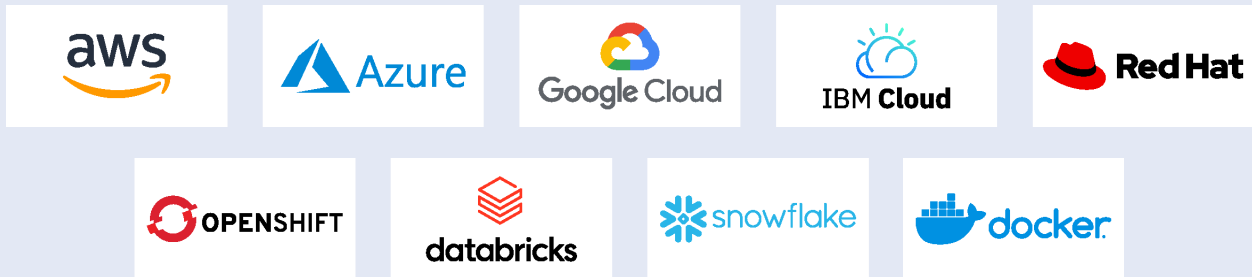

SaaS Enablement

- Assessment
- Rollout plan & implementation
- Application support

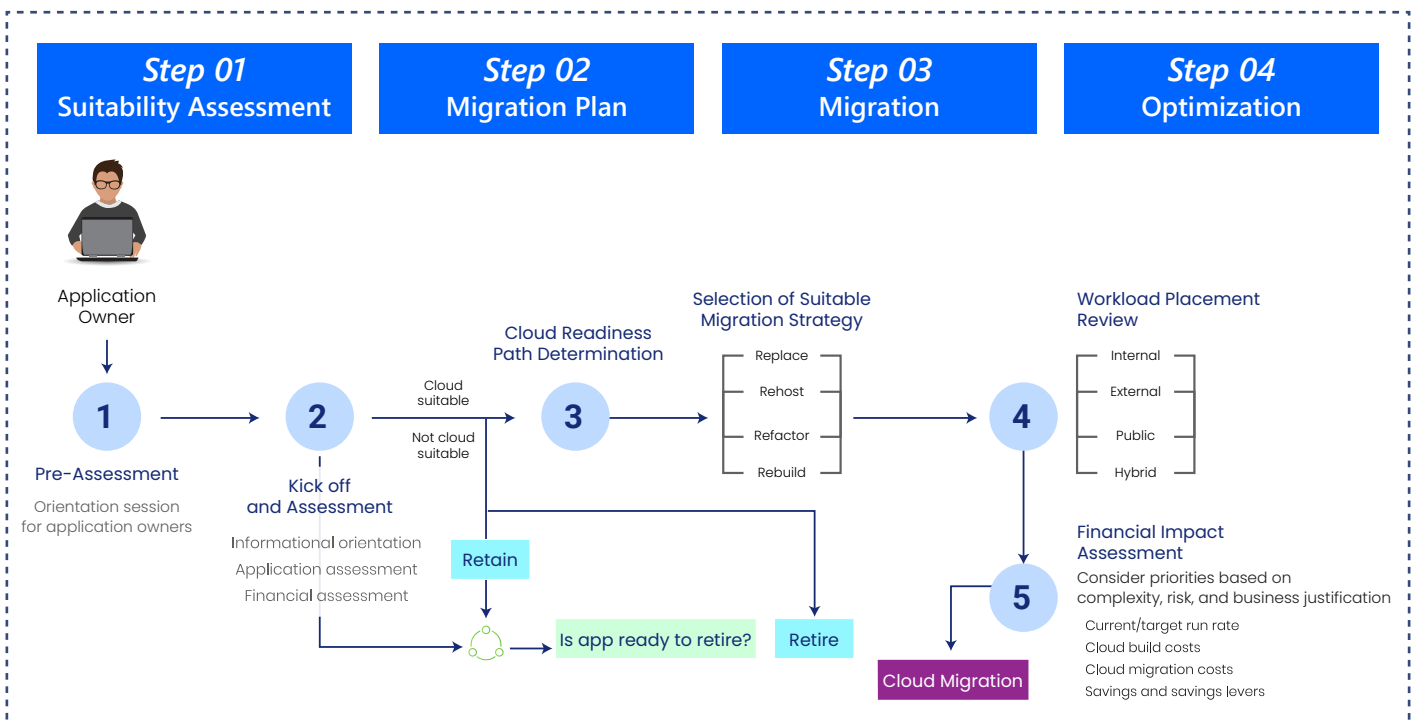

EHR on Cloud

- EHR cloud readiness assessment
- Architecture & design
- Methodology

Key Partnerships

Proven Cloud Suitability Assessment Framework

Our Accelerator

CloudGain

CloudGain is a cost optimization tool that enables you with full control over your cloud cost. It mines billing details & usage over a period of time to analyse & recommend reductions in your cloud spends. It helps you gain complete visibility, optimize & save cost, and provide timely alerts and recommendations.
