CYBERARK

Our Accelerators

IdentityDesk

An automated user lifecycle management solution helping the IT team to streamline the user lifecycle journey from provisioning to deprovisioning. It helps eliminate manual processes, improves security posture and provides seamless experience across all platforms.

GenAI Powered HelpDesk Insight

A GenAI enabled platform empowering helpdesks to identify threat actors, assess high risk scenarios and provide actionable insights for informed decision-making to helpdesk users.

AI-led ZIF - Zero Incident Framework

AIOps based TechOps platform enabling proactive detection of incidents, preventing costly downtime, and helping organizations to drive towards Zero Incident Enterprise.

GS Lab | GAVS is a global technology company focused on creating business impact for its 200+ customers across the USA, Europe, the Middle East, and APAC. It offers digital product engineering, AI-led managed services, and digital transformation services to customers across Healthcare, BFSI, Communications, and High-tech segments. With 4000+ technologists and a strong talent grooming engine, it is a trusted growth partner to its customers.

The company focuses on deep tech engineering skills, innovative win-win business models, and customer success. Its IPs, such as ZIF™, zIrrus, Rhodium, and zDesk, help accelerate technology adoption and reduce inefficiencies in operations.
